기본프로그래밍_Java B-02

There's no mercy for cheating!
The test time is from 9:30 to 10:00

* 필수항목

1. What's your student number?(kopo00) *

    _____

2. Write a program to draw the lines as below. 1) The number of the lines is 5. 2) The
    five integers from 0 to 8 are randomly generated from Math.random(). 3) The
    randomly generated numbers stand for the number of asterisks(*). 4) On the odd
    lines, the asterisks are printed from the left, otherwise, they are printed from the
    right. *Refer to the picture below[10]. *

    ```
    3****       *
    7* ********
    2***        *
    8**********
    0*          *
    ```

3. Write a program to count the number of trials for the dedicated number[5]. 1)
    User inputs a number from 0 to 20. 2) The program generates a random number
    from 0 to 20. 3) The program is stopped when the random number is the same as
    the one user input. *
